OBJECTIVE

I am a highly motivated and detail-oriented third-year *Information Technology* student at Universitas Bhayangkara Jakarta Raya, seeking a challenging opportunity to deepen my understanding of frontend and ui ux development in a collaborative team environment. Utilizing strong leadership and creativity, problem-solving, and communication skills honed through various experiences, I am confident in contributing effectively to the team's success.

PROJECT EXPERIENCE

Universitas Bhayangkara Jakarta Raya

Business Owner Of PEYEKU

2022

This is my first business that I run while on campus, Peyeku is a business brand that I have made myself and sell various variants of Rempeyek, in this business I make different innovations so that it can be liked by all circles, one of which is making attractive packaging designs and logos, various flavors, and buyers can also order it on a personal website that has been provided to facilitate ordering.

Human Computer Interaction

2023

Create an ui ux interface of the e commerce website using figma with a fashion theme along with its prototype and flow using a flowchart
